A fantasatic Roguelike! Super fun progression system, both within each run, and in the way of permanent unlockables. But don't just take my word for it...

You can try the first Cardinal Quest for free at NewGrounds ([link](#)), and the phone version of Cardinal Quest 2 for free on both Android ([link](#)) and iOS! ([link](#))

If you enjoy those anywhere near as much as I did, the Steam version (which has more content) will be a great purchase.. - Aero Chord - Boundless is a very boring and monoton song and its to easy even on expert+. I put just about a 100 hours into this game. life got complicated for me so I stepped away from it for a few months. Come back to find ridiculous pay to play schemes. When I was playing intensely I set myself the goal of buying unlimited licenses for all the areas using ingame cash from catching fish which was very grindy but totally possible to do, now its baitcoins or whatever they call it to get unlimited. It had a well balanced economy, now I look at prices and my mouth falls open.

The durability and pay to repair items is ridiculous, in the real world I have fishing rods from my great grandfather that still work beautifully with out having to "repair" them after fishing for a day, so I see no practical gaming reason for this mechanic. Sure I snapped a rod once in the 25 years ive been fishing, ten minutes later with some bamboo splints and string I was back to fishing. Yes I should get a new tackle bag, the one that was given to me as a kid is pretty worn out, But I think it will last me another year or two.

This was a great game once upon a time, a bit grindy a bit buggy but overall I was astounded at the promise it showed and laughed at other lesser fishing simulators. I bought some real money dlcs to support what I thought would be the greatest fishing game of the decade. Now? Nope, im too old to fall into this money trap. Perhaps one day it wont be like it is now and I sincerly hope so. Until then, farewell.. The game is Good and the Story is awesome! But Sadly the PvP (Ranked) always give me Connection error even when i can play others online games smoothly. For a \$50 game it should have way better servers. Few days later and the problem still there. If you are a PvP player look for more info before spending money on this one. Because refund is usless too.. it NOT cool, fun and interesting game. The developer is a really nice person he helped me with a problem I faced when first installed the game and he released and fix within few days.

A great game but I'd suggest waiting for a sale for it. It's really not worth the listed price, sorry.. New platformer classic is born! This game is an addicting as it gets. Controls are solid and difficulty is right in the ball park, wanting to try once more. Graphics are well made pixel art and it works like a charm. And I love that the game has very cryptic and mysterious feeling. This game is a solid oldschool platformer with a own twist. I can recommended this to anyone that likes old school platformers!. A simple fast paced team based shooter with moba like elements, pick from one of 6 classes each with their own unique skills and abilities. All classes have their strengths and weaknesses each with their own personality. Monday Night Combat is my favourite game on steam and always will be! Unfortunately the games playerbase is very limited, but with the help of the MNC community games are organised regularly. So don't threat too much about never being able to play. The commentator of the game spews out hilarious dialogue about your situation and the teams performance, the game even has a mascot that appears on the field that you can shoot for money and prizes!

Join the "hotshotsforever" group on steam to inform you of organised events.

Did I mention MNC is the most lethal sport of the future? ;)

Hiyo! 10/10! Oh!... And theres bacon! (see you on the field of combat!). I've only had this game for a short time and I'm already addicted. The only problem is that I don't know how to access the DLC I bought. Anyone else know how to?

Please and thank you!. Interesting, Lots of bugs to be fixed, but for the price i would have to say, go for it. .99cents is like money that you find on the street.

9/10 for the price only.. I've just started playing, and am only several levels in, but since this game is new, I felt something should be said.

Simply a REALLY fun, interesting, challenging game, especially for such a low price. I plan to revisit this review soon, but I strongly suggest getting this game.

As interesting as the early levels are, I can only imagine the further levels are really challenging, but so much fun that even losing (as a normal part of the process) isn't really so bad. Each level adds really clever new features.

The music in Tile Rider is absolutely TOP NOTCH. As well, it makes for some great Drive Any Track tunes, with full credit for each wonderful song (a welcome rarity for a game soundtrack.)

For a game this price, one can hardly go wrong.. The art is nice. I bought it because I liked the art.

Sword Daughter is the second VN I have 'played', being the first Fate Stay Night. To be fair, VN is not my genre of choice so I renounce any expertise in the field. But if I read the word 'novel' I expect something to read for many hours. With a plot. Some character development is always nice.

Sword Daughter's plot is weak so is natural to think its strong point would be in character development. Guess again, there is no character development at all. I don't call a schizophrenic half elf 'character development'. The heroine needs another background, for a warrior to be she is extremely unfit.

Maybe I am in Grinch mode and cannot believe that love, true love, is born that quickly.

"Come home with me."

"Okay. I love you. I wanted to avenge mi father's death but meh."

Pros:

+Gallery

+Scene Selection

Cons:

-Too short

-No character development ever

-Romance is forced. A lot of people think this game is random - it's not. It's all based on your skill stats. If you work to raise your magic skill and no others, and something like a finesse roll comes up - you will fail that roll. The randomness comes in

what skills are tested at each location. I worked to raise my mind skill at the hospital and ended up continually failing physique rolls, and as a result ended up raising my magic skill and lowering my mind, leading to my picking the conjurer ending for that character. This makes it seem as though the game is random, but it's all ruled by your base stats.

That said, this game can be played in 10 minute intervals if you're killing time, or in longer stretches if you want to unravel more story lines. It's very rewarding getting the best endings, but even some of the worst plot twists reward your curiosity. I tried to play an evil character and stayed in the slums pickpocketing on every turn but ended up giving that character the best Robin Hood ending I could have imagined. Some endings seem great, but have a twist to them that ends up haunting you and bringing you back just to try to improve it. I recommend playing with all characters out as that seems to lengthen the game time.

This game is quick paced (if you want it to be) and rewarding, and worth a play - or five or six or a hundred.

-Misha. ,, very Zen little game

few rules and a snails pace
